Johannes did Patrick reach out to talk to you about intership and their cel purchase intent? They want to likely bug 4-5 million \$ worth CELs in the next 10-14 days				2020-10-25 12:30:37.003 PM

Patrick is working a loan deal and cel purchase is a part of this talk so you don't have to do much of the talk but you have to decide the price and we have to get the reg s signed at that time				2020-10-25 12:31:54.003 PM

Hi Harumi, I hope you had a great weekend so far. I heard about Intership from Aliza and Alex. But Patrick did not reach out to us. Alex told me about this the day we hit \$1 and basically asked me to figure out how we can take care the CEL price goes back to \$1.30+ before the deal closes .. so yeah, I'm waiting for Patrick to reach out and appreciate a lot that we handle it officially with the OTC desk and not like last time .. Something else: Do you know whom Alex sold 13,000,101 CEL? I saw this morning that Alex now holds that much less in the App and someone else popped up with this amount of CEL (I'm referring to the Top200 CEL Holder list on the website..)				2020-10-25 01:05:37.010 PM

No he did not say anything about that to me				2020-10-25 01:06:47.013 PM

And patrick supposedly reached out to you to talk but has not heard back from you yet. Doesn't matter to me. The important thing is you are aware of intership deal				2020-10-25 01:07:25.013 PM
